MEADOWS™**  
Professional Quality Equine Supplements

MAKING LIFE  
BETTER

*Choice of Champions*

## The Science Behind *Grand Meadows*

At Grand Meadows, we have a passion that translates to everything we do. The central core of that passion is our commitment to provide high quality, science based animal health supplements, at a price you can afford to improve the health, performance and longevity of your horses and pets.

In an industry that sometimes falls short in standards and ethics, selling overpriced formulas, we have made these issues the pillars of our approach to our business. That is why we have gained the respect and trust of professional riders, trainers, veterinarians, and animal owners around the globe.

Our commitment to you is to continue to produce the finest quality products that are competitive and affordable, to be a resource for consumers, confused or concerned about the myriad of product choices available, and to always focus on the welfare of your horse and pets above all other issues.

*Optimum Health, Performance and Longevity.*

***“Grand Flex – a proven formula,  
has been our top recommendation”***

Horse Journal

## Grand Meadows™

Since 1985, Grand Meadows Nutritional Products has led the competitive U.S. industry with high-quality, cost-effective equine and pet supplements. Confirming this in September 2004, the NASC™ (National Animal Supplement Council) recognized Grand Meadows for manufacturing supplements with the highest standards of quality, accurate label claims, and excellence in the industry by being one of the first to earn the NASC™ Quality Seal.

**Grand Meadows** continues to develop new advanced formulas containing premium grade ingredients, plus patented and select compounds.

Comprehensive quality control inspections on each and every bucket ensures our commitment to producing the finest quality products available in the marketplace.

***“From the very beginning, Grand Meadows aspired to be a company that had a passion for improving the health and wellness of horses”***

“Today, almost thirty years later, one of the most gratifying aspects of this journey is meeting people from all over the world, in every discipline, who have experienced a change in the health and mobility of their own horse after using Grand Meadows. They tell me how much better their riding experience has become and share some remarkable stories of success. Thank you for letting Grand Meadows play a positive role in your equine lifestyle and your horse’s health and well being.”

**Angela Slater**

Founder, Grand Meadows

# *The Choice of Champions®*

Top professional riders all over the world use Grand Meadows products along with thousands of other horseowners – the one consistent response we always get – IT WORKS! Our team of scientists and nutritionists constantly strive to produce the highest quality supplements available today.

*Quality and Excellence you can Trust*

## Order Online...It's Easy!

Simply visit [www.grandmeadows.com](http://www.grandmeadows.com) and view information about our products, read testimonials from leading riders and equine experts, compare nutritional ingredients between Grand Meadows and competitor's products and locate an authorized retailer near you or place an order online and have it shipped directly to your front door.

Also visit [www.grandpremiumplus.com](http://www.grandpremiumplus.com)

**Smoky Pritchett**  
NRCHA Hall of Fame

“I am most impressed with how quickly the young horses have bloomed, they have put on more muscle and their coat has a metallic sheen to it, not to mention that our vet bills have gone down! Great products and my horses are all staying on it.”

**Allison Kroff**  
International FEI Grand Prix Trainer

“I have been using Grand Meadows for the last two years on both my Grand Prix horses. Since I have started I have seen positive changes in both my horses. They retain their stamina and soundness throughout all their competition weeks. I will always use Grand Meadows products for all my horses.”

**William Fox Pitt**  
2010 WEG Silver Medalist  
FEI Ranking World #1

“We have confidence in Grand Meadows to provide supplements that have helped all our horses deal so successfully with the rigors of eventing.”

**Heather Blitz**  
2012 U.S. Olympic Team  
2011 WEG Gold and Silver Medalist

“I have been using Grand Meadows products for my horses since my Grand Prix tour in Europe ten years ago. Paragon and Ripline are exceptionally fit and sound and they continue to excel in their performances. I really trust their products. I have seen how effective their products are to insure my horses have that extra edge to perform and win at their elite level of competition.”

Many leading veterinarians trust and recommend Grand Meadows products to their clients. One of the best environments for the horse to get vitamins and minerals exists when a horse is free to roam over large areas continuously eating a variety of plant species grown on a variety of soil conditions.

Supplements help provide these valuable ingredients when free range conditions do not exist.

# Grand Flex™

Are you worried about maintaining the soundness of your horse?

Joint problems are virtually endemic with performance or aging horses. Grand Flex was designed to provide a powerful tool to help keep your horse fit and sound. You owe your horse the extra support that Grand Flex can provide if you want to keep him moving at his best.

Grand Flex has been repeatedly recognized in Horse Journal as the best glucosamine product on the market. By combining glucosamine with important co-factors Grand Flex will not only support just the joints, it will also help to maintain and support associated tendons and ligaments, providing a much more comprehensive solution.

Top professional riders all over the world use Grand Flex along with thousands of other horseowners – the one consistent response we always get – IT WORKS!

## Helps:

- **Support-Manage Joint Health and Function**
- **Provides Long-Term Joint Maintenance**
- **Helps Support against Joint Problems**
- **Manage Joint Stress**

# Grand Complete™

## The First All-In-One Simplify your Supplement Program

Grand Complete™ combines the most comprehensive ingredients from our most popular products, Grand Flex, Grand Hoof Pellets, Grand Coat, and Grand Vite, into one unique formula targeting all the key areas for overall wellness of your horse. By providing this powerful, balanced formula daily, you simplify your program to provide support and help maintain the joints, hooves, coat, immune system, and digestive tract with the benefits of its "all-in-one" formula.

Consolidating ingredients into one comprehensive product reduces your costs, and provides your horse with an "all-in-one" support program. Grand Complete is even safe to use with reduced levels of other Grand Meadows products to further enhance your horse care program.

- **All Around Wellness**
- **Long Term Total Support**
- **Simplifies Supplement Program**

"Tipper has been on Grand Complete & the Grand Calm for over two 2 years. I tried other products and just didn't see any change or improvement in performance. She has gotten stronger & faster at each race. I always recommend them to my clients and fellow competitors - they really do work!"

**Melissa Weiser**  
State NBHA Champion

## Grand HA™

Nourishes, Lubricates and Supports the Joints, Tendons, Ligaments and Muscles

Grand H.A.™ provides 300 mg of Hyaluronic Acid per serving, the highest level available. Hyaluronic Acid (HA) is the chief component of synovial fluid that cushions and lubricates the joints. It plays an important role in increasing the viscosity and reducing friction between articular surfaces.

Grand H.A. contains Kolla II®, a new US patented “Super Ingredient” clinically proven for rapid, absorption and promotion of joint health. Kolla II® provides a matrix of HA molecules at 1/90th of their original size, Collagen Type II, and Depolymerized Chondroitin Sulfate. The combination of these three ingredients match the natural structure found in articular cartilage. Grand H.A. with Collagen Type II represents a new dimension in joint technology - a more scientific approach for ultimate joint care.

### Product Facts

Per 2oz. (56.76 g) unit

Hyaluronic Acid	300 mg
Collagen Type II	1,000 mg
Depolymerized Chondroitin Sulfate	350 mg

- Intense Training - Competition Horses - Aging Horses • Long Term Joint/Tendon/Muscle Support • Combined with Grand Flex, MEGA Grand Flex to Maximize Results

“For over ten years I have fed Grand Meadows products. I get consistent results that I have always been pleased with. I am a big fan of the HA and Collagen Type II in their jointcare line and Grand Calm helps my horses stay focused and attentive. My horses compete and perform in many competitions and exhibitions all over the country. Grand Meadows ensures my horses maintain soundness, a high level of fitness and strength for the stresses associated with training and competing.”

# Grand HA Synergy™

## Maximum Support for Joint Health

Grand H.A. Synergy™ is a comprehensive matrix of powerful ingredients making it the top of our joint formula line. Unmatched by other HA products that merely offer one-dimensional support. US Patented Kolla II® is a highly bioavailable combination of components: Hyaluronic Acid (HA), depolymerized Chondroitin Sulfate, and Collagen Type II, which represents 90% of the collagen present in articular cartilage. Grand H.A. Synergy combines these powerful ingredients with Glucosamine, MSM, and other key co-factors that match the crucial requirements for healthy cartilage, joint fluids, and supporting connective tissue. All these ingredients work synergistically to promote healthy joint function and provide support and flexibility.

## Powerful Matrix... HA + Collagen Type II

- **Maximum Joint - Tendon - Muscle - Ligament Support**
- **Supports the Total Joint Matrix**
- **Helps Maintain Cartilage and Connective Tissues**
- **Supports less muscle soreness and stiffness, with shorter recovery time**
- **Optimal HA Molecular Weight for proven absorption**

### Product Facts

Per 2oz. (56.76 g) serving

Hyaluronic Acid	200 mg
Collagen Type II	735 mg
Depolymerized Chondroitin Sulfate	250 mg
MSM	10,000 mg
Glucosamine HCL	5,000 mg
Omega 3 Fatty Acids	1,000 mg
Omega 6 Fatty Acids	275 mg
Vitamin C	500 mg
Bioflavonoids	100 mg
Lysine	200 mg
Proline	80 mg
Manganese	250 mg
Zinc	200 mg
Copper	50 mg

"I started using Grand HA Synergy while competing in Europe over ten years ago. Confidently, I continued to use Grand Meadows products when I returned to the US to keep all my horses thriving and sound. Paragon is exceptionally sound and healthy and continues to excel in his performance. I am often told that all my horses look so well developed and fit - Grand Meadows gives my horses that extra edge and it shows."

#### Heather Blitz

Dressage Rider, Trainer & Clinician – U.S. Olympic Team (2012), Gold and Silver WEG (2011)

- **Help Support/Manage Acute Joint Stress**
- **Horses that need a higher level joint formula**
- **Supports joint mobility and helps reduce stiffness**
- **Intense Training – High Performance**
- **Targeted Advanced Joint Support**
- **Can be Combined with Grand HA for Maximum Results**

## MEGA Grand Flex™

### Aggressive Joint Support Formula

MEGA Grand Flex™ is ideal for senior horses, competition horses, and all horses in various disciplines. We recommend using MEGA Grand Flex when a more advanced approach is needed. MEGA Grand Flex contains all the important co-factors contained in original Grand Flex, plus **12,500 mg** of Glucosamine and **10,000 mg** of MSM per measure to promote healthy joint function. This product provides higher levels of Glucosamine and MSM. Optimum joint protection usually takes between two to three months. For a more powerful approach, Grand H.A. can be added, or you can switch to Grand H.A. Synergy. When results have been achieved, it may not be necessary to use MEGA Grand Flex on a long-term basis; we recommend following with our original Grand Flex, Grand Complete, or Grand H.A. for long-term maintenance and joint support.

"We require a lot from our horses. We like to use MEGA Grand Flex on some horses that need the extra joint help. All our show horses are on Grand Meadows. We like the results - they are fit, sound and so well turned out!"

**Alex Griffith**  
AG Performance Horses

Available in:

**3.75 lb** (1.7 kg) 60 servings  
**10 lb** (4.54 kg) 160 servings  
**20 lb** (11.36 kg) 320 servings

# Senior Flex™

Keep your horse fit and sound – for the long term...

Injuries can happen and as horses age a breakdown can occur in the function of the joint, muscle or tendons requiring a more aggressive joint supplement to help him recover, be comfortable, stay active, fit and sound... for the long term.

### Proven joint support ingredients:

Grand Flex Senior contains all the important co-factors that have made the original Grand Flex so successful. Plus high levels of Glucosamine, Hyaluronic Acid, Collagen Type II, Depolymerized Chondroitin Sulfate to promote healthy joint function and support flexibility.

### Manage Discomfort and Alleviate Stiffness

This formula provides a powerful combination of MSM, Devil's Claw, Boswellia and Yucca to help manage residual discomfort and alleviate stiffness associated with years of wear and tear from your hard working horse.

### Optimal Digestion and Improved Immune Function

The final element that makes Grand Flex Senior truly unique is the inclusion of Diamond V® Prebiotic Yeast that will maximize bacterial digestion, increase immune function.

- Long Term Healthy Joint Function
- Supports Flexibility of Muscles-Tendons
- Manages muscle soreness and stiffness
- Probiotic – Prebiotic – Immune Support

- 10 lb** (4.54 kg) 110 servings
- 20 lb** (11.36 kg) 220 servings

## Don't be fooled that more is better.

Many companies add higher levels of biotin, but use a diluted 1% trituated form. We tested a number of popular brands with high Biotin claims and found actual ingredients didn't match label claims. **Grand Hoof formulas use a concentrated pure grade of stabilized Biotin and the proper ratio of hoof-building nutrients. Results from research prove just 15-20 mg of biotin works.**

## Grand Hoof™

## Grand Hoof Pellets + MSM™

Problems with your horse's hooves?

Are you tired of losing shoes, dealing with crumbly hoof walls, quartercracks, tender and sore hooves? Building a healthy hoof is crucial to keeping your horse sound and performing at his best.

Grand Hoof's original formula, developed over 20 years ago, and Grand Hoof Pellets + MSM are both proven formulas to grow and maintain strong, tough, healthy hooves. Their potent formulas will give you the best and fastest results – results you and your farrier have been looking for.

Proven studies and field testing on horses with hoof problems have shown noticeable improvement when supplemented with Biotin and Methionine. First you'll see a new healthier band of hoof growth directly below the coronary band. Remember – it takes 3-6 months for solid improvement and almost a year for the hoof to completely grow out.

- **Biotin**, stimulates keratin production in the hoof's laminae and coronary band to support the hoof wall, frog and white line, minimizing weak walls and cracks and protecting the exterior hoof wall from moisture damage.
- **MSM & Methionine** increases delivery of hoof building nutrients and supports the connective tissues inside the hoof wall. MSM and Methionine work as vasodilators, relaxing blood vessels vital to circulating nutrient rich blood into the small capillaries inside the hoof.
- **Zinc, Copper, Lysine and B-6** – are important for protein and enzyme synthesis for proper hoof repair, and growth.
- **Diamond V® Prebiotic Fermented Yeast** supports feed digestibility and utilization.

Available in:

**5 lb** (2.27 kg) 80 servings  
**10 lb** (4.54 kg) 160 servings  
**25 lb** (11.36 kg) 400 servings

**“Living in California with its dry climate makes the horse’s feet crack and dry out more. I always recommend Grand Hoof to my clients for their horse’s that have hoof wall problems such a cracking and slow growth rate and especially for the more therapeutic cases where I need to speed growth up. The walls become stronger and hold shoes on much better. Grand Hoof Pellets+MSM is the best specific hoof supplement I’ve ever used and always amazed by the results I see in the fast, improved hoof condition and healthy new ring of growth.”**

## Grand Digest™

Healthy digestion fuels your horse's ultimate performance...

If you're worried about the risks of colic, ulcers, diarrhea, poor immune function due to stresses of traveling, training or a new environment, Grand Digest can help support a healthy stomach and keep your horse's gastrointestinal system in balance.

### First Complete Digestive Formula Proven Ingredients

#### #1 Stomach – Detox

Grand Digest starts working in the stomach by combining Toxynil-Plus™ and Zeolites to capture and neutralize toxins and allow them to pass harmlessly through the body. The addition of Glutamine provides nourishment and repair to the sensitive stomach lining where ulcers can occur.

#### #2 Small Intestine – Enhance Absorption

As feed passes into the small intestine Multizyme™ enhances the enzymatic breakdown of nutrients and Glutamine also causes the important intestinal villi to grow to aid in the absorption of vital nutrients into the bloodstream.

#### #3 Hindgut – Improve

In the hindgut or large intestine the combination of Probiotics, Prebiotics, and immune boosting Fungi with Diamond V® provide a powerful support system to maximize the breakdown of more fibrous feed, stabilizing the pH to support gastric health, reduce the risk of colic symptoms and improve immune function.

Keeping your horse's complex digestive system operating at peak performance.

Product Facts	
Per 2oz. (56.76 g) unit	
Zeolytes	21,262 mg
Saccharomyces Cerevisiae	11,340 mg
Probiotics	40,416 million CFU

# Grand Coat™

Give your horse the “Wow” factor...

Grand Coat’s quadruple premium formula works quickly to deliver breathtaking colors, glossy coats, a lustrous mane and tail.

- Promotes shiny, healthy coat and skin.
- Enhances coat color
- Supports digestion & immune function

## Beauty that’s more than .....Skin Deep

With Grand Coat’s premium source of Omega Fatty Acids from heat stabilized ENRECO® fortified ground flax meal which is combined with effective co-factors your horse will shine brilliantly with healthy skin and coat.

What really sets Grand Coat apart from the competition... **Lecithin**, which supplies phospholipids, a vital requirement for helping enhance healthy skin and deeper, improved shiny coat color.

## Grand Vite™

Better Nutrition, Better performance...

The reasons to feed Grand Vite are varied:

- **'Hard Keepers' that do not absorb the nutrients they need**
- **Older, senior horses not able to digest nutrients efficiently**
- **Horses recovering from illness**
- **Pregnant – Lactating – Breeding Mares and Stallions**
- **High Performance horses to maximize overall wellness and long-term performance**

Grand Vite is a time-tested formula developed in 1985, and is highly recommended by veterinarians and some of America's best trainers and riders. You will not find a product that offers a more comprehensive range of the most important nutrients to meet your horse's individual needs and complement his daily diet.

Grand Vite is safe when fed in addition to forage, pasture, and complete feeds to enhance your horse's diet.

Pasture is your horse's "Best Friend" and an ideal feed source for your horse to meet his nutritional needs – more time out on pasture, the better.

For most horse owners grazing is not always possible or practical. Training, trailering, eating grain and living in a stall is the norm for today's horse. Thankfully, horses are remarkably adaptable creatures...

Grand Vite offers the perfect solution to help fill the nutritional gaps from lack of pasture grazing and routine stall feedings.

"My vet and I both agree that Grand Vite's comprehensive formula helped Remy complete 72 races in top physical condition and 3 Tevis Cup 100 mile finishes."

## Grand Calm™

Helps to Minimize Stress...  
and Support Maximum Performance

Riding and preparing your horse for a casual trail ride, exercise and training, or participating in a show should be fun for you and your horse. A hard to handle, spooky, stressed out horse will quickly ruin your enjoyment and affect the outcome of your ride or performance.

Grand Calm is a unique formula consisting of a patented, pure form of Theanine shown to affect alpha brain waves that cause a relaxed but alert mental state. The only formula to combine four sources of magnesium which helps maintain calmness.

### Product Facts

	Per 1oz. (28.5 g) unit PELLETS	Per 32gm. unit PASTE
Theanine	1,000 mg	1,500 mg
Magnesium Oxide	4,480 mg	6,750 mg
Magnesium Carbonate	1,320 mg	1,500 mg
Magnesium Chelate	200 mg	300 mg
Organic Magnesium	50 mg	
Thiamine	500 mg	700 mg

All ingredients are exempt from any  
FEI restrictions.

- Intense support
- Anxious-Spooky-Nervous-Tense
- Moody Mares
- Gain Focus & Attention

**Grand Calm Syringe Paste** is a quick, easy way to provide rapid stress relief to keep your horse cool and calm.

"The results were immediate and simply amazing....Dressage has been the defining part of my life as a trainer for over 19 years. My talented, athletic 18 h gelding, Charly was insecure and sometimes a dangerous partner under saddle when we headed to a clinic or the show ring. Frustrated and concerned to find a calming product that worked effectively and more important, was show legal, lead me to Grand Meadows Calm products. Now as I am able to increase his work load and stress preparing for a show, he remains relaxed and can focus longer. His movements became more fluid and swinging as we move forward down the centerline with pride and confidence. Thank you Grand Meadows."

# Grand Lytes™

## Balanced to Match the Ratio of Minerals Lost in Sweat

Specifically formulated to replace the ratio of minerals lost during sweating. When your horse is working hard for extended periods of time in hot conditions it is essential that electrolyte levels are replenished to avoid dehydration.

Equine sweat contains dissolved minerals, electrolytes, and provides a protein-rich moisture barrier that nature designed to control the horse's body temperature in an effort to cool the body by evaporation.

Loss of critical electrolytes can lead to dehydration, constricted blood vessels, heat exhaustion, reduced energy that affects the heart, muscles, GI system and brain.

Prior to any long ride or discipline in hot weather it is recommended to feed Grand Lytes. Always have plenty of fresh water available as electrolytes help stimulate horses to drink. So - when your horse sweats excessively, he needs water and electrolytes.

- **Replace Electrolytes**
- **Reduce Dehydration**
- **Improve Water Intake**

### Product Facts

Per 2oz. (56.76 g) serving

Omega 3 Fatty Acids	10,000 mg
Omega 6 Fatty Acids	2,750 mg
Lecithin	2,500 mg
Diamond V® Prebiotic Yeast*	150 mg
Methionine	500 mg
Lysine	437 mg
Zinc	250 mg
Leucine	100 mg
Copper	25 mg
Biotin	1 mg
Amino Acid Profile	2,518 mg

\*Supports Digestion and Boosts Immune Function

"I have a very picky eater and drinker. We compete heavily in Eventing and Grand Lytes ensure my horse gets the correct electrolyte balance for good hydration and healthy sweating - which is so important in this sport. I also feed Grand Lyte in the winter when the water is icy cold to encourage normal drinking. He had no problem polishing off all the Grand Lytes from his feed bucket. I couldn't be more pleased with this product and can definitely recommend it."
