Capt. Shahid Naseer
President & CEO

SHAARS International Inc. carries a wide variety of products. Since the inception of *SHAARS International Inc.*, it has been our vision to become one of the leading suppliers of quality equine, small animal, cattle, and poultry products to our customers around the globe. We work extremely hard to identify the products that we believe are beneficial to our customers. We provide unmatched customer service to the entire satisfaction of our constituencies. We also have the capability of providing most products that the customers require, even outside of our portfolio. We thank all our suppliers and customers worldwide for their continued support.

FORAGE SOLUTIONS LLC

FORAGE SOLUTIONS, LLC offers consistent, high quality chopped hay products grown with care and attention to detail by *HEIDEL HOLLOW FARM INC.* to ensure the highest quality forages, *HEIDEL HOLLOW FARM* uses the latest harvesting techniques.

INGREDIENTS

Sun-cured Chopped Grass Hay (Timothy and Orchardgrass),
Sun-cured Chopped Alfalfa, Vegetable Oil.

GUARANTEED ANALYSIS

Crude Protein (min)	10.00%
Crude Fat (min)	1.50%
Crude Fiber (max)	37.00%
Ash (max)	9.00%

- Convenient Way to Deliver Oral Medications, and Supplements.

- Masks the "odd" taste of foreign water sources, so you can use local water when on the road

- Great for Horses and other livestock having trouble eating long stem forages.

- Good for all animals

FEEDING DIRECTIONS

Hydration Hay® Horse Hay Blocks can be fed dry or soaked in water.

Soaking directions:

Place one 2-lb Hydration Hay® Horse Hay Block in a large bucket. Add a minimum of 5 quarts of water. Allow product to absorb water prior to feeding (approximately 10 minutes). To facilitate more uniform absorption, flip the hay block halfway through soaking time. Additional mixing by hand may further accelerate water absorption.

Designed to replace a portion or all of the forage in a horse's diet. Replace forage on a 1:1 ratio. Each 2 lbs of dry hay can be replaced with one 2-lb dry Forage Solutions LLC Hydration Hay® Horse Hay Blocks.

If replacing all forage in a horse's diet, be sure to feed at a minimum rate of 1.0 to 1.2% of body weight (10-12 lbs/ 5-6 blocks for a 1,000 lb horse) with 2.0% of body weight preferred. Inadequate amounts of forage may lead to colic and other digestive disturbances.

Hydration Hay® Original Horse Hay Block is a premium blend of quality grass and alfalfa hay that has been compressed into a convenient, lightweight block. Simply drop the block into a bucket of water and it will quickly absorb water to make moist, palatable hay. Recommended for all horses at all life stages.

Dropped in water

Soaked for 5 minutes

Ready in 10 minutes

Hydration Hay is a compressed blend of premium grass and alfalfa hay. It's convenient, lightweight and easy to use reducing the need to haul water and large bales of hay when traveling. Quickly absorbs 5 quarts of water and promotes water intake for proper hydration.

J.M. Saddler, Inc.

Products for Leather, Outdoor Equipment, and Animal Care

J.M. Saddler, Inc. is committed to developing and delivering superior quality products in six major industries: equestrian, pet, luggage, furniture, shoe repair, and the automotive aftermarket. All Saddler equine products are available through *SHAARS International Inc.*

A new product for the HUMANS: *OLD MacDONALD'S's© MY ACHIN' LOTION™* helps ease sore, stiff muscles and joints that often go along with hard work in animal care.

Help for the BABIES: *LITTLE 'LYTES™* for foals and a variety of baby animals aids in combating electrolyte imbalance due to scours and diarrhea. Available in both the *OLD MacDONALD'S's©* and *BLUE STALLION©* product lines.

And for FEATHERED FRIENDS: Stop bird bullies in poultry flocks by spraying *OLD MacDONALD'S's© STOP THAT PECKIN'™* on feathers to prevent pecking.

BLUE STALLION® VETERINARY PRODUCTS

Blue Stallion RC-Boost and Blue Stallion Biotin Crumbles are just a few items from J.M. Saddler's vast product lines. Other product lines include: Saddler's, Blue Stallion (featured), and Old McDonald's, ensuring they have something to meet all your equine needs.

SUCCEED is practical for large farms as for the single horse owner, and it helps every kind of horse. Since it works naturally to help maintain ongoing digestive health, *SUCCEED* is an ideal adjunct to your own equine wellness program. Succeed is available in oral paste or top-dress granules.

SUCCEED Digestive Conditioning Program is a patented formula that supports healthy gastrointestinal function and performance in horses.

Legendary support to thrive! Powder or pellets, *SOURCE* provides Hoof, Senior, and Weight supplements.

Focus HF provides key nutrient building blocks including biotin, methionine, lecithin, chelated trace minerals, nutritional yeast culture, natural iodine and the legendary *SOURCE* micronutrients. No other hoof product provides this broad spectrum of support nutrients to help your horse develop.

Revolutionary Cooling Products:

Equi Cool Down uses a two-step process of PVA material and 50% plant composition that allows their products to get ANY temperature water, even boiling water, from ANY source, actually cold and keep it cold all day long!

Equi Cool Down provides Equine leg wraps, Equine body wraps, Equine neck wraps, beanies, towels and headbands.

Ramard Inc.'s goal is to create and produce innovative, cutting edge products that are made with only the highest quality pharmaceutical-grade ingredients available, and are free of fillers and artificial ingredients. Ramard Inc. has consistently produced the most powerful and effective products on the market today.

30 Day Supply Jars come in the following selections: Total Joint Care, Total Immune Blast, Total Calm & Focus, Total Blood Fluids Muscle, Total Tendon, and Total Gut Health. These powders target the problems your equine is facing at the source.

Relief Gel™ is a unique proprietary blend of powerful analgesic ingredients formulated to quickly relieve joint, tendon, leg and muscle discomfort and swelling.

The next generation of Prebiotics and Probiotics: with 50 million CFU per gram of powerful Probiotics. Available is a 240 gram jar - 5 lb. jar or an oral syringe.

180 Day Supply Pails come in the following selections: Total Joint Care Performance, Total Immunes Blast, Total Calm & Focus, Total Blood Fluids Muscle, Total Tendon Repair, and Total Gut Health. These powders target the problems your equine is facing at the source.

Grand Meadows has a passion that translates to everything they do. The central core of that passion is their commitment to provide high quality; science based animal health supplements, at a price you can afford to improve health, performance and longevity of your horses and pets. In an industry that sometimes falls short in standards and ethics, they have made these issues the pillars of their approach to their business. That is why they have gained the respect and trust of professional riders, trainers, veterinarians, and animal owners around the globe.

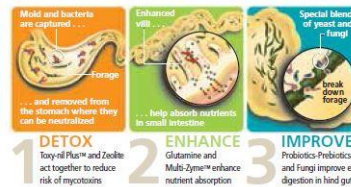

Grand Digest helps aid healthy digestion that fuels your horse's ultimate performance. If you're worried about risks of colic, ulcers, diarrhea, poor immune function due to stress of traveling, training or new environment, Grand Digest is the product for you!

- #1 Stomach – Detox**
Grand Digest starts working in the stomach by combining Toxinyl-Plus™ and Zeolites to capture and neutralize toxins and allow them to pass harmlessly through the body. The addition of Glutamine provides nourishment and repair to the sensitive stomach lining where ulcers can occur.
- #2 Small Intestine – Enhance Absorption**
As feed passes into the small intestine Multizyme™ enhances the enzymatic breakdown of nutrients and Glutamine also causes the important intestinal villi to grow to aid in the absorption of vital nutrients into the bloodstream.
- #3 Hindgut – Improve**
In the hindgut or large intestine the combination of Probiotics, Prebiotics, and immune boosting Fungi with Diamond V® provide a powerful support system to maximize the breakdown of more fibrous feed, stabilizing the pH to support gastric health, reduce the risk of colic symptoms and improve immune function.

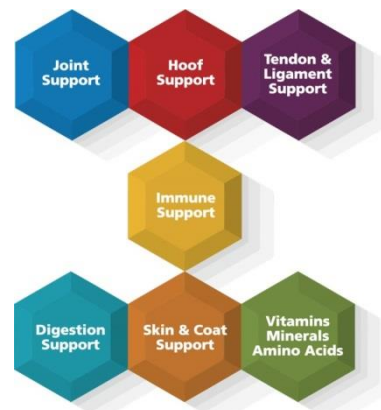

Product Facts

Per 2oz. (56.7g) unit	
Zeolites	21,262 mg
Saccharomyces Cerevisiae	11,340 mg
Probiotics	40,416 million CFU
Yeast Fermentation Product	
Sodium Aluminosilicate	7,382 mg
Digestive Enzyme Blend (Amylase, Cellulase, Lipase, Glucanase, Pectinase, Xylanase, Lactase)	4,252 mg

Fermentation Product	
Glutamine	1,984 mg

At First Companion, they have a goal to be the preferred brand of products for your dogs, cats and horses. Their products enrich the lives of pets and their owners through protection, treatment and prevention. Products in the First Companion label are safe and effective, they only put products in their label that meet a need for pets and their owners.

First Companion specializes in products that enrich your pets' life through treatment and preventative products... and don't forget about treats!

NAG™ Horse Ranch proudly presents their "Sun protection" line! It began with a nose shade and quickly grew to include full face shades, eye shades which double as fly mask and trail riding shades in lots of styles, sizes and colors! All of their shades are made with extremely durable 90% UV proof materials that are effective! They are designed not to rest on the horses' face for comfort and allow horses to graze and drink with ease.

All of the face shades double as a fly mask and UV eye protection.

The Health Guardian's global mission is to provide individuals everywhere with the very best in cardiovascular health by providing an alternative approach to the current medical healthcare system, which is failing even with the most advanced surgical procedures and high cost pharmaceutical drugs.

CardioForLife® is an all-natural supplement designed to help with cardiovascular disease. CardioForLife® powder comes in four delicious flavors - **GRAPE, ORANGE, PEACH** and **PINA COLADA**. It dissolves quickly and easily in water.

Product Description

AstraGin™ is the first and only natural food ingredient that has shown in cell, animal, and human studies to significantly improve the absorption of many essential life supporting and health promoting nutrients, such as amino acids, glucose, and vitamins, into human cells. By allowing a greater amount of these nutrients to pass from the blood stream into the cells, AstraGin™ provides for truly improved bioavailability and hence improvement in overall health, fitness, energy, endurance, sense of well being, blood sugar balance, and lean body mass. AstraGin™ is the perfect food and nutraceutical ingredient to be included in human and pet foods, and dietary supplements.

AstraGin™ is a proprietary, all natural plant based formulation derived from highly purified Panax notoginseng and Astragalus membranaceus using a pharmaceutical grade extraction and processing technology. AstraGin™ increases chemicals in the human body called "transporter" and "mRNA". These chemicals determine how much or less specific nutrients are absorbed into the intestinal cells and thus are available to support and promote our health and well being.

Advantages of AstraGin™

- Increase amino acid absorption by 62%*
- Increase vitamin absorption by 50%
- Increase glucose absorption by 57%
- Increase ATP production by 18%
- Decrease blood sugar level by 19%
- Increase insulin sensitivity by 38%
- Increase glycogen in muscle (24 hours after strenuous exercise) by 60%
- Water soluble
- Consistent and adequate supply
- Good mouth feel
- Bland to sweet taste profile

*Arginine and Tryptophan showed such results. All results are based on a dosage level of 50mg.

- ✓ Nothing Artificial

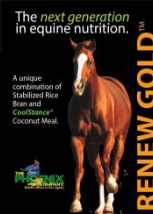

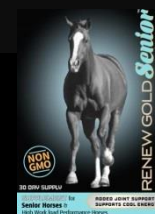

Peak Performance Nutrients strives to provide the very best in feed supplements and health products for horses of all disciplines. Since 1997, these products have been developed based on the belief that horses should be treated like elite athletes. Elite athletes do not need added sugar to slow them down or fillers to interfere with nutrient absorption. They do not need feed grade ingredients with higher levels of heavy metals or carrier ingredients. Instead, your elite equine athlete needs sugar and filler free supplements made with food grade ingredients to ensure peak performance and health.

Peak Performance Nutrients is a sugar free alternative that comes in pastes and powders.

RENEW GOLD™

The Phoenix Company, located in California, has been leading the way in animal nutrition for over 20 years when they introduced *Stabilized Rice Bran* to the Equine industry.
