

QUICK REFERENCE GUIDE

ABOUT

Stride® Animal Health offers innovative SOLUTIONS designed to maximize the health and comfort of animals dealing with everyday stressors such as aging, training and competition.

MISSION

Our mission is to utilize research and science to develop SOLUTIONS that create longevity and fulfillment for your animals. We use a unique combination of drug-free nutritional and functional ingredients plus exclusive manufacturing capabilities to maintain the integrity and efficacy of our products.

QUALITY STANDARDS

All products are compliant under United States Equestrian Federation (USEF) and FEI regulations. We adhere to stringent quality standards set forth by the Food and Drug Administration (FDA), National Animal Supplement Council (NASC), and American Association of Feed Control Officials (AAFCO). Our team of Ph.D. nutritionists formulate with science-based information and real-world experience, which ensures each product has been designed for maximum effectiveness. In addition, our manufacturing facilities are routinely inspected by state and government officials to ensure product quality and workplace safety. Rest assured that when you choose a solution from Stride® Animal Health, you are choosing the absolute best.

DIET BALANCER

DESCRIPTION

101 Diet Balancer supplies essential minerals and nutrients, and helps maintain the general health of all ages and breeds of horses. 101 Diet Balancer is formulated with concentrated levels of essential nutrients which makes it ideal for performance horses and growing horses.

IDEAL FOR

1. Hay-only or pasture-only diet.
2. Horses eating a vitamin and mineral fortified feed at less than recommended levels.
3. Horses eating oats, alfalfa pellets, or any other non-fortified feed.
4. Horses that need a calorie-restricted way to consume important vitamins and minerals.

Note: 101 Diet Balancer should not be fed in combination with Nutrimix, Nutrimix Plus, Element, or Boost 'Em.

DO NOT FEED TO SHEEP OR COPPER SENSITIVE SPECIES.

KEY INGREDIENTS

- Organic Minerals
- Vitamins
- Amino Acids
- Yeast Cultures
- Kelp Seaweed
- Biotin
- Prebiotics
- Probiotics
- Digestive Enzymes
- Antioxidants

"I've been using 101 as a diet balancer for my overweight horse on a hay only diet for over a year. I never thought about what he was lacking nutritionally by only eating hay, but I've seen a noticeable improvement in hoof and coat quality since starting the 101. I love the convenience of everything he needs being in one product. The pelleted form is also great because it makes him feel like he's eating feed with everyone else, which makes me feel less guilty!" - Lindsay

“VERY PLEASED WITH THE RESULTS!”

“I put my mare on ADR last year for her chronic ulcers. She lives on daily omeprazole and also suffers from summer pasture-associated allergies where she would develop a dry cough every August that required steroids to resolve. For the first time last summer she did not develop the cough and the only thing that changed was putting her on this product. She also has not had an ulcer flare-up either. Very pleased with the results I have seen!” - Kristin

DESCRIPTION

ADR contains a source of live (viable) naturally occurring microorganisms.

BENEFITS

1. Balances the horse's intestinal microflora.
2. Supports growth of beneficial bacteria in the intestines.
3. Supports the immune system.
4. Supports a healthy appetite.
5. Supports normal health of intestinal tissue.
6. Assists in the digestion and absorption of essential nutrients.
7. Contains direct-fed microbial cultures to supply beneficial microorganisms that occur naturally in the gut of healthy horses.

KEY INGREDIENTS

- Beta Glucans
- Yeast Cultures (source of mannan oligosaccharides)
- Prebiotics
- Probiotics

**MEGA-DOSE
PROBIOTIC
PLUS PREBIOTIC**

AMINO ACID SUPPORT

DESCRIPTION

Competitive Edge is a superior amino acid supplement that contains all 10 essential amino acids, plus antioxidants and essential fatty acids. Amino acids play a critical role in building and maintaining muscle along the topline and other areas of the body.

BENEFITS

1. Formula rich in amino acids.
2. Supports the capacity of muscles to sustain exercise.
3. Promotes muscle integrity and definition.
4. Helps maintain proper body composition.
5. Supports normal muscle recovery.
6. Helps keep animals in peak condition.
7. Supports healthy immune function.
8. Contains a source of live (viable) naturally occurring microorganisms.
9. Appropriate to use with any feeding program.

KEY INGREDIENTS

- Protein
- Lysine
- 10 Amino Acids
- Antioxidants
- Prebiotics
- ALA (Omega 3)
- EPA (Omega 3)
- DHA (Omega 3)

"After comparing Competitive Edge to other amino acid supplements on the market I decided to give it a try for my picky OTTB mare who has trouble holding her topline. She is holding condition better than ever and she loves the taste! Very satisfied with Competitive Edge! - Cara

"I needed a free-choice mineral for my broodmare band that spends the summer out at pasture. Element is in a crumble form so it doesn't blow and sift like a lot of loose minerals. It is also more resistant to caking and clumping than anything else I have used. My mares look great and I can rest assured the babies they are carrying are getting the vitamins and minerals they need for proper development." - James

DESCRIPTION

Element is a loose mineral that supplies essential minerals and nutrients which help maintain the general health of all ages and breeds of horses. Element can be offered free-choice or fed on top of feed. When feeding free-choice, loose salt can be added to influence consumption rates.

IDEAL FOR

1. Horses on a hay-only or pasture-only diet.
2. Providing an economical way to balance basic vitamin and mineral requirements.
3. Providing daily electrolytes.

Note: *Element should not be fed in combination with 101 Diet Balancer, Nutrimix, Nutrimix Plus, or Boost 'Em.*

DO NOT FEED TO SHEEP OR COPPER SENSITIVE SPECIES.

KEY INGREDIENTS

- Macro Minerals
- Trace Minerals
- Electrolytes
- Vitamins

**FREE CHOICE
MINERAL**

"Engage works better than any other calming supplement we have tried in the past. We use it to help our horses focus in new places. We don't leave for a big show without it, I highly recommend this product!" - Melissa

DESCRIPTION

Engage promotes a sense of relaxation, focus, and mental alertness in horses without causing drowsiness. This proprietary formulation is unique from all other calming supplements on the market because it supports normal function of neurotransmitters in the brain, specifically serotonin and dopamine.

BENEFITS

1. Calming effect on the nerves.
2. Promotes relaxation.
3. Enhances brain function.
4. Helps horses cope with external stresses.
5. Helps maintain normal emotional balance.
6. Helps horses maintain a normal and relaxed disposition.
7. May help curb destructive behavior (such as during stall rest).
8. Supports behavior modification and training programs.

KEY INGREDIENTS

Engage contains ingredients that will not test when used at recommended levels. Engage can be given in preparation for a one-time event such as a farrier visit, training session or show; or can be used on a daily short-term basis such as at sales, shows, or during periods of stall rest. Engage should be given 1 to 2 hours prior to the event at a time when the horse is relaxed.

**CALMING AND
FOCUS AID**

HIGH FAT OMEGA 3 SUPPLEMENT

DESCRIPTION

Fish Oil Factor provides dietary essential fatty acids (linoleic and linolenic acid) and non-dietary essential fatty acids (EPA & DHA found in fish oil). This formula provides a critical balance of omega-3 and omega-6 fatty acids.

BENEFITS

1. Supplies essential fatty acids for a soft, silky, shiny and healthy coat.
2. Helps support circulation.
3. Supports a normal immune response.
4. Helps maintain optimal function of reproductive processes.
5. Helps maintain pliability and hoof moisture.

KEY INGREDIENTS

- EPA (Omega 3)
- DHA (Omega 3)
- ALA (Omega 3)
- Antioxidants
- Flax Seed
- Rice Bran

“I CAN’T BE WITHOUT IT.”

“My dark bay 22 year old off the track Thoroughbred has never looked so good! Her coat is shiny and oh those dapples! Even the vet has commented on the dapples. My rescue girl struggled with skin issues until this amazing product. I just can't be without it!” - Susan

“I’M GETTING MY OLD HORSE BACK!”

“My mare has had chronic diarrhea for over 2 years now. We have tried everything, and I mean everything. Thousands of dollars spent and nothing has helped. We were to the point where we had to make a decision whether her quality of life was worth letting her go through another year of pain as we watched my once vibrant and happy horse waste away. My vet suggested GI Calm based on the symptoms my mare was having. Just 6 weeks in my mare’s diarrhea improved significantly. It’s the first time I have seen normal manure in 2.5 years, and I know she is on her way to being healed. She trotted around the pasture and bucked and kicked out a few days ago for the first time in 2 years and I can see her old mischievous attitude coming back. She had gotten to where she wouldn’t eat anymore and now she paws and gets frustrated if we don’t have her feed bucket in front of her when she gets in her stall. I think I’m getting my old horse back! All I can say is thank you from the bottom of my heart!” - Chris

DESCRIPTION

GI Calm supports normal function of epithelial tight junctions that line the gut. GI Calm is ideal for supporting normal GI health and function in the face of stressors such as travel, training and performance. When other digestive supplements have failed, it is time to try GI Calm.

BENEFITS

1. Supports normal tight junction function in the gut.
2. Helps support structural integrity of the gut lining.
3. Enhanced gut function.
4. Supports normal GI health and function.
5. Enhances immune function.
6. Promotes the body's innate resistance to pathogens.
7. Keeps the digestive tract functioning properly which may help reduce the possibility of colic.

KEY INGREDIENTS

- Butyric Acid
- Peptides
- Antioxidants

**INTESTINAL
TIGHT JUNCTION
SUPPORT**

PLASMA

DESCRIPTION

LIFELINE+ Equine® contains functional, biologically active components (such as peptides and immunoglobulins) that support the lungs, gut, joints, immune system, and reproductive tract. LIFELINE+ Equine® supports total-body wellness.

IDEAL FOR

1. Enhanced lung function.
2. Helping support structural integrity of the lung tissue.
3. Enhanced gut function.
4. Keeping the digestive tract functioning properly which may help reduce the possibility of colic.
5. Supporting normal GI health and function.
6. Helping support structural integrity of the gut lining.
7. Enhanced immune function.
8. Promoting the body's innate resistance to pathogens.
9. Helping maintain a healthy pregnancy.
10. Providing factors important during reproduction and lactation.
11. Helping maintain joint mobility.
12. Easing joint and body stiffness due to normal daily exercise and activity.

BENEFITS

LIFELINE+ Equine® supports multiple physiological systems within the body through mucosa-associated lymphoid tissue (MALT) which communicates with various organs (i.e. the gut, lungs, immune system, and reproductive tract). Researchers have also found that the active ingredient in LIFELINE+ Equine® can help maintain joint mobility and ease stiffness due to normal daily exercise and activity.

“Keeping show horses in tip-top condition can be stressful not only on us as trainers, but also on our horses through the daily training, and travel. We keep all of our horses on Lifeline+ all year round to help with those stressful situations, and we cannot be more satisfied with the product. Our horses have great coats, muscle, and recovery time on this product! Not to mention they hold weight well even on the road to shows! We will continue to keep our horses on this product as we have had nothing but great success feeding it! Thanks Stride Animal Health for keeping our horses happy, healthy, and performing their best!”

- Sam

STAMINA

DESCRIPTION

Moving Up is designed to help support stamina and the capacity of muscles to sustain exercise. Moving Up also supports normal immune function to help your horse deal with the stress and strain of competition.

IDEAL FOR

1. Biochemists report that Vitamin C and bioflavonoids work together synergistically to support the membranes of capillaries and cells.
2. Supporting energy production at a cellular level.
3. Supporting circulation.
4. Supporting vascular health.
5. Supporting normal blood pressure.
6. Antioxidants help maintain normal DNA and enhance the immune response.
7. Immune enhancing effects.

BENEFITS

Moving Up contains natural ingredients such as peptides, botanicals, and antioxidants which are included in specific ratios and forms in order to support your horse's stamina. Choose Moving Up to help your horse advance to the next level of performance.

"After a complete fallout at Regional Championships, my good friend put me in touch with the team at Stride Animal Health. Aside from Nutrimix, they recommended Moving Up. My mare is an 8 year old Friesian with some exceptional movement, but is lacking in the stamina department like most horses of her breed. The Louisiana and Texas heat do not exactly do her any favors either. After using Moving Up for a few short months, my coach and fellow trainers have exclaimed that she looks like a different horse. The muscle she lost due to her diet and work stress has come back and she's gained even more. We went from showing Second Level last fall to aiming for a Prix St. George debut this coming Spring! I know for a fact that it wouldn't have happened if it weren't for this product. It really helped her push through and be able to work well and do so consistently. Freyja and I are forever grateful!" - Katie

PERFORMANCE EQUINE VITAMIN AND MINERAL

DESCRIPTION

Nutrimix supplies essential minerals and nutrients, and helps maintain the general health of all ages and breeds of horses.

CHOOSE NUTRIMIX FOR

1. No fillers
2. No energy (calories)
3. No protein
4. No potassium
5. Providing electrolytes
6. Horses eating a vitamin and mineral fortified feed at less than recommended levels.
7. Horses eating oats, alfalfa pellets or any other non-fortified feed.
8. Horses that need a calorie restricted way to consume important vitamins and minerals.

Note: Nutrimix should not be fed in combination with Nutrimix Plus, 101 Diet Balancer, Element, or Boost 'Em.

DO NOT FEED TO SHEEP OR COPPER SENSITIVE SPECIES.

KEY INGREDIENTS

- Organic Minerals
- Vitamins
- Biotin
- Antioxidants

“PROPER LEVELS OF NUTRIENTS TO STAY HEALTHY AND STRONG”

“I’ve been breeding horses for more than 20 years, and have used the Nutrimix Powder for most of it. After I began using it, I never had to worry about any developmental issues. It is such a good balancer that ensures my mares are passing on the right nutrients to their unborn fetuses, and the growing foals are receiving what they need. I also use it with my horses that are not a part of the breeding program so I know they are getting the proper levels of nutrients to stay healthy and strong. I cannot imagine feeding a horse without it! And I do feed a top quality horse feed, but learned that they are not getting what is on the label unless I am feeding each horse 6 lbs per day, which most of mine don’t get. It may seem expensive, but it is definitely worth it in the end!” - Sharon

“When I first got my OTTB gelding, he came with weak, cracking hoof walls and a very soft, weak sole. He had shoes all the way around and was pulling at least one off every other week, meaning my farrier bill was getting expensive. I was suggested Nutrimix Plus as something that might help with this. I have had Louis on this for about six months now and the changes in his feet are amazing. He currently is only shod in the front, and it has been about three months since he last pulled a shoe. The progress that his feet have made in such a short amount of time is amazing. Thank you for coming up with this amazing supplement!” - Emily

DESCRIPTION

Similar to Nutrimix, Nutrimix Plus is a complete mineral and vitamin supplement that can properly balance the mineral and vitamin levels of plain grains, or supplement an already balanced ration or a 100% forage diet. In addition, Nutrimix Plus provides ample amounts of critical nutrients for supporting normal hoof growth and hair coat quality.

CHOOSE NUTRIMIX PLUS FOR

1. Growing strong, tough soles and hoof wall.
2. Providing weak hoof walls with necessary vitamins and minerals.
3. Providing methionine and lysine (two amino acids essential for hoof and sole growth).
4. Providing zinc for keratin development of the hoof wall.
5. An all-inclusive way to provide critical nutrients that work together to support cracks and maintain hoof wall quality.

Note: *Nutrimix Plus* should not be fed in combination with *Nutrimix*, *101 Diet Balancer*, *Element*, or *Boost 'Em*.

DO NOT FEED TO SHEEP OR COPPER SENSITIVE SPECIES.

KEY INGREDIENTS

- Biotin (100 mg/day)
- DL-Methionine (4400 mg/day)
- Organic Minerals
- Vitamins
- Antioxidants

HOOF SUPPLEMENT

BONE & JOINT REBUILDING

DESCRIPTION

Ortho Max provides functional ingredients to promote healthy joints and support normal health and development of bone, cartilage and supporting tissues. Ortho Max is a concentrated source of high quality ingredients.

BENEFITS

1. Provide building blocks for cartilage.
2. Provide joint-reinforcing factors.
3. Provide ingredients that support joint function.
4. Provide factors for bone development and building of connective tissue.
5. Promote cartilage development and joint health.

KEY INGREDIENTS

- Glucosamine
- Chondroitin
- MSM
- Vitamin E
- Vitamin C
- Antioxidants

“ORTHOMAX IS A MAINSTAY IN OUR PROGRAM”

“Ortho Max is a mainstay in our program to help prevent OCD’s from developing in our growing horses and support the bones, joints, and tendons in our performance horses. The horses in our program have more fluid movement and don’t seem to get as sore. Plus we have peace of mind knowing we are doing our absolute best to support their legs and joints.” - Trevor

"The best supplement on the market. I have known about the benefits of the green lip muscle for over 20 years now. FINALLY someone has stepped up to provide one of the best known products for joints and arthritis. My performance horses are maintained daily on the pelleted supplement and I rub Rewind Liniment onto their legs and joints before each run. Thank you Stride Animal Health, you've done it again!" - DW

DESCRIPTION

Rewind is designed to support healthy joints and flexibility, and help ease occasional stiffness and soreness in horses. The unique omega-3 fatty acid (ETA) in Rewind helps decrease normal inflammatory pathways, therefore enhancing the body's normal repair of joints.

BENEFITS

1. May help ease aches and discomfort caused by training and competition.
2. May help discomfort associated with normal daily exercise and activity.
3. May help reduce inflammation associated with training and competition.
4. Maintains a normal inflammatory cytokine cascade.
5. Contains natural ingredients which will not test at shows.
6. Promotes healthy joints.
7. Helps maintain joint mobility.
8. Eases joint stiffness due to normal daily exercise and activity.

KEY INGREDIENTS

- Eicosatetraenoic acid, ETA (Omega 3)

**Human Capsules are great for dogs!*

**JOINT SUPPORT FOR
OCCASIONAL
STIFFNESS**

FAT SUPPLEMENT

DESCRIPTION

Shine is designed to support skin and coat health while providing concentrated cool-energy calories. A simple formula infused with essential fatty acids creates brilliant shine while providing additional calories to support a healthy body weight.

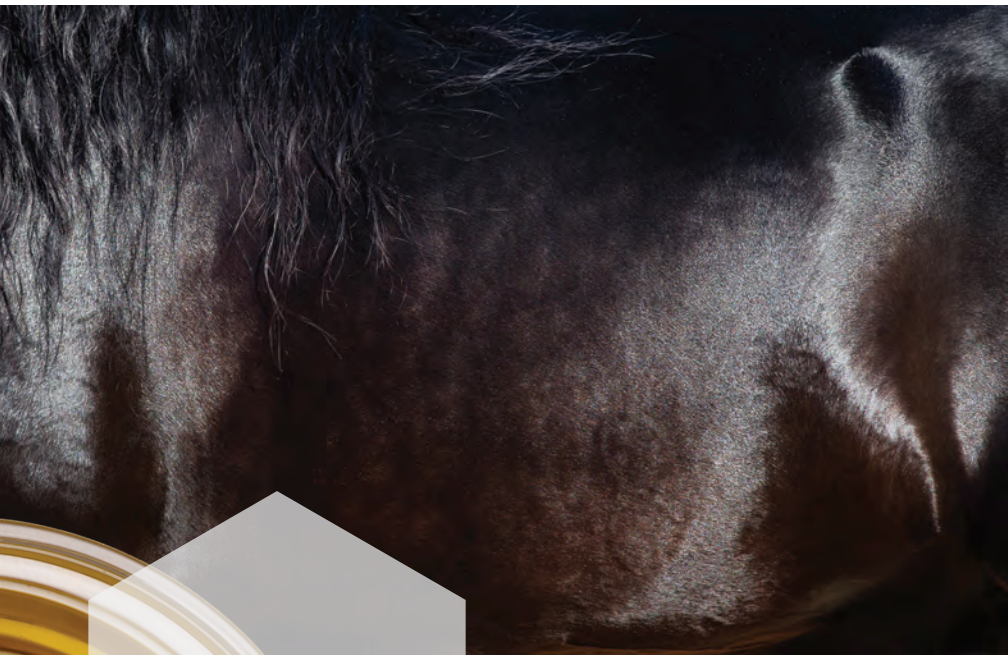

BENEFITS

1. Helps achieve a soft, silky and shiny coat.
2. Promotes a healthy coat and skin.
3. 99% fat content.
4. Highly concentrated cool-energy calorie source.

KEY INGREDIENTS

- Mechanically-extracted soybean oil

"Finally, a cost-effective way to feed high levels of fat and cool-energy calories to my horse! Shine is 99% fat, which makes it way more effective at providing calories and adding weight than most weight builders and fat supplements out there. Since using this supplement my horses' coats are glossy and shiny all year round!" - Meghan

"My dressage horse has navicular, which was well under control. He was progressing up the levels happily until lameness once again became an issue. Unfortunately, it was not his navicular. He had developed a bone cyst. We sadly retired him to pasture, keeping him as comfortable as possible. He has been at pasture for 3 years. He loved work, and even with attention and long hand-walks, he was still bored. After being told about Surge, it was worth a try. We saw improvement with the first container. I was able to start short hacks on flat ground. He remained sound. He now makes our small loop. It is about 30 minutes in the woods and he loves it. He's still sound, and will get a re-check in February. He was doing well with all his other treatments, but I saw a real difference after adding Surge. In fact, he never ran in his field, but now we have to watch him if he doesn't get hacked! I have a very happy horse back. Thank you so much!" -Pamela

DESCRIPTION

Surge was developed to support normal blood flow and circulation within the body. Increased blood flow can be especially helpful to the legs, feet, lungs, and in supporting the body's normal rebuilding processes.

BENEFITS

1. Enhanced blood flow.
2. Helps with occasional discomfort in feet.
3. Supports the body's utilization of other supplements.
4. Supports oxygen utilization.
5. Supports normal integrity and function of the lungs.
6. Helps support normal stamina and endurance.
7. Supports the fastest rate of tissue regeneration that is normal for a horse.

Note: Discontinue use at least 10 days prior to foaling or surgical procedures. Do not use in animals with cancer.

KEY INGREDIENTS

Surge is a proprietary blend of botanicals, functional amino acids, lipids, and anti-oxidants designed to support the production of nitric oxide in the horse's body. This product will not test at shows when used at recommended levels.

**CIRCULATION
SUPPORT**

THE DIFFERENCE

MUSCLE MASS & DEFINITION

DESCRIPTION

The Difference is designed to support normal muscle integrity and definition. This supplement also supports libido in breeding stallions.

BENEFITS

1. Promotes muscle integrity and definition.
2. Promotes muscle tone.
3. Supports muscle recovery.
4. Supports male reproductive function.

KEY INGREDIENTS

Novel ingredients such as colostrum and fatty acids have been shown to help support the growth of muscle and support everyday health of strong, defined muscles. The Difference also provides stallions with factors that are important during reproduction and helps maintain normal function of reproductive processes.

“IMPROVEMENT IN MUSCLE HAS BEEN REMARKABLE”

“I have halter horses and “the difference” I noticed after feeding The Difference is amazing! The improvement in muscle definition and muscle tone has been remarkable. I have also seen it turn stallions (who seemed to have lost interest in their job) back into the breeding machines they needed to be.”

- William

DIGESTIVE CATALYST

DESCRIPTION

Transform DSI is a digestive catalyst designed to assist in the digestion and absorption of essential nutrients.

BENEFITS

1. Supports a healthy appetite.
2. Supports the horse's existing intestinal microflora.
3. Supports growth of beneficial bacteria in the intestines.
4. Supports the immune system.
5. Assists in the digestion and absorption of essential nutrients.
6. Contains direct-fed microbial cultures to supply beneficial microorganisms that occur naturally in the hind gut of healthy horses.

KEY INGREDIENTS

- Lactic Yeast
- Peptides
- Digestive Enzymes
- Yeast Cultures (a source of mannan oligosaccharides)
- Prebiotics
- Probiotics
- Beta Glucans

“I moved to a new boarding facility that fed grass hay only, and my horse constantly had a hay belly. The team at Stride Animal Health explained that a “hay belly look” can be caused when hay is harvested at a later stage and has a lot of undigestible fiber. They recommended Transform DSI to help break down some of that fiber that my horse couldn’t digest on his own. I can’t believe the difference it has made. My horse now looks fit and healthy and no more hay belly!” - Michelle

"I had a mare who was rubbing her sides against the stall and kept having mild bouts of impaction colic. I was at a loss of what to do until a consultant with Stride Animal Health suggested using Turbo Mag to increase the water retention in the digestive tract. Sure enough, as soon as I started Turbo Mag she stopped rubbing her sides, she's back to acting normal, and she has not had a colic episode since! I'm so thankful I found Turbo Mag!" - Kelly

DESCRIPTION

Turbo Mag is a quick absorbing oral electrolyte for animals dealing with summer heat, hard work, training and physical activity.

BENEFITS

1. Helps maintain proper metabolic pH.
2. Helps support hydration levels.
3. Replaces lost electrolytes.
4. Helps maintain normal fluid balance in blood and tissues.
5. Helps maintain normal concentration of minerals.
6. Helps maintain proper body composition.
7. Helps muscle function and fluid balance.
8. Helps replace fluid lost through sweat.
9. Supports healthy cellular activity.

KEY INGREDIENTS

- Electrolytes
- Antioxidants
- Branched Chain Amino Acids

**ELECTROLYTE WITH
BRANCHED CHAIN
AMINO ACIDS**

ANTIOXIDANT SUPPORT

DESCRIPTION

Vitamin E/C targets the horse's immune system, and provides antioxidants. Antioxidants have been shown to aid in the elimination of unstable oxygen molecules called free radicals. Antioxidants help remove damaging free radicals, decrease oxidative damage, protect body cells and tissues, and maintain normal DNA.

IDEAL FOR

1. Support normal detoxification processes.
2. Support immune system function.
3. Aid in the elimination of unstable oxygen molecules called free radicals.
4. Help reduce free radical damage.
5. Reduce oxidative stress.
6. Provide antioxidant protection.
7. Assist the body in combating environmental pollutants.
8. Support normal cellular health and function.

BENEFITS

- Natural Vitamin E (in alpha and gamma forms)
- Vitamin C

“Several years ago, my mare suffered from horrific hives (even on her face) that would not disappear in spite of me and my vet's best efforts. I called the team at Stride Animal Health, who had guided me with other issues with this same mare since her long yearling days, and they explained the relationship between the hind gut, immunity and hives. We immediately incorporated Vitamin E/C into our daily regimen and haven't looked back!” - Maria

PROGRAMS

21 DAY HIND GUT HEALTH

DIGESTIVE SYSTEM RESET

We have been searching for the right product for our event, dressage, and endurance horses for several years. We believed that we had taken care of stomach ulcers with the industry's leading paste on the market, but our horses still had symptoms of gastrointestinal issues - would not eat at shows, discomfort when girthing, tight backs, picky/non consistent eating habits, adverse reaction to leg pressure, among others. After 2 weeks of being on the Hind Gut Health Program, our horses' personalities, food habits, and approach to work changed dramatically. Each of them now eat everything in their feed tub and ask for more. They are quiet on the cross ties, usually resting one hind leg while being tacked up and we are now really able to train due to better overall attitudes. We have tried multiple products over the years and this product has been the only one that we have used that makes a noticeable difference both on the ground and while riding.

- Clark

DESCRIPTION

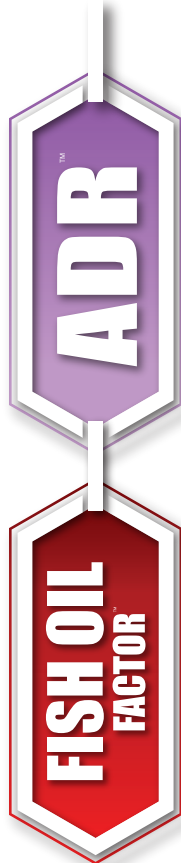

21 Day Hind Gut Program contains 3 supplements packaged in an easy-to-carry box. The included daily checklist will help you feed the correct product in the correct amount on the correct day to achieve optimal results. This program contains ADR Paste, ADR Powder, and Fish Oil Factor.

IDEAL FOR

1. Supporting a positive attitude towards work.
2. Balancing the horse's intestinal microflora.
3. Supporting normal digestive function in horses.
4. Supporting normal consistency of your horse's manure.
5. Supporting your horse's ability to maintain desired body condition.
6. Supporting your horse's desired energy level and stamina.
7. Supporting your horse's ability to flex laterally (a horse with an inflamed intestine cannot flex freely).
8. Supporting a normal appearance in the flank area.

KEY INGREDIENTS

- Beta Glucans
- Yeast Cultures (a source of mannan oligosaccharides)
- Prebiotics
- Probiotics
- EPA (Omega 3)
- DHA (Omega 3)

HOOF HEALTH PROGRAM

HOOF SUPPORT

"All I can say is WOW!! I have a 2 year old off the track Thoroughbred who has horrible feet with paper thin soles. At the recommendation of a friend, I tried the Hoof Health Program. We took x-rays before and after, and both my vet and farrier were blown away at the amount of sole we were able to grow in just 30 days. They said that amount of growth typically takes 4-6 months!"
-Amy

DESCRIPTION

The Hoof Health Program contains 3 supplements packaged in an easy-to-carry box. The included daily checklist will help you feed the correct product in the correct amount on the correct day to achieve optimal effectiveness. This program contains Nutrimix Plus, Fish Oil Factor, and Surge.

IDEAL FOR

1. Grow strong, tough hooves.
2. Provide weak hoof walls necessary vitamins and minerals.
3. Support the fastest rate of hoof growth that is normal for the horse.
4. Support desired health and strength of ligaments and tendons of the foot and leg.
5. Provide all necessary minerals and vitamins to support your horse's normal overall health.
6. Help support circulation.

KEY INGREDIENTS

This program utilizes three unique supplements that work together to support cracked hooves, maintain hoof walls, and maintain pliability and moisture within the hoof. This program helps support circulation which is essential for maintaining healthy laminae tissue and supplying key nutrients essential for hoof growth and sole thickness.

IMMUNE HEALTH PROGRAM

IMMUNE SUPPORT

"My mare started bleeding last April and kept bleeding through Lasix and other EIPH programs. She quit sweating in June and was given 6 months off to recuperate. We brought her back only to be faced with the return of the bleeding and chronic cough. My vet and I discussed other diagnostic tests to evaluate her condition, and we decided to check her for allergies. Her results were **ASTONISHING** as she appeared to be allergic to **EVERYTHING** in her environment as well as all feeds, grains and forages! The team at Stride Animal Health looked at the results and suggested an autoimmune disorder like Leaky Gut Syndrome. We started the Immune Health Program and within 10 days this mare was showing signs of improvement! She is looking and feeling better, and she ran twice this weekend **WITHOUT BLEEDING!!!** The team at Stride Animal Health truly wants to help solve the problem and **NOT MASK THE SYMPTOMS** of a problematic condition becoming more and more prominent in the equine world. Can't thank you guys enough!" -Toni

DESCRIPTION

The Immune Health Program contains 4 supplements packaged in an easy-to-carry box. The included daily checklist will help you feed the correct product in the correct amount on the correct day to achieve optimal effectiveness. This program contains ADR Powder, ADR Paste, Fish Oil Factor, and Vitamin E/C.

IDEAL FOR

1. Support a healthy immune system.
2. Support the normal detoxification process.
3. May help with occasional or seasonal allergies.
4. Help maintain normal DNA and immune health through antioxidant support.
5. Help maintain healthy skin.
6. Support normal cellular health and function.
7. Support the body's normal response to pathogens and antigens.

KEY INGREDIENTS

- Antioxidants
- Prebiotics
- Probiotics
- Yeast Cultures (a source of mannan oligosaccharides)
- EPA (Omega 3)
- DHA (Omega 3)
- Flax Seed

KEY INGREDIENTS

- Protein
- Amino Acids
- Kelp Seaweed
- Yeast Cultures
- Organic Minerals
- Vitamins
- Biotin
- Prebiotics
- Probiotics

"We use Boost 'Em to balance our custom grain diets for our show lambs. It is amazing how much how much muscle-tone they gained with it. We are a customer for life!" - Josh

“We feed Competitive Edge to our show goats and lambs. It trims them up nicely and the muscling and overall appearance is top notch. We were able to cut fat and add an impressive amount of muscle with this supplement!” - Ed

DESCRIPTION

Competitive Edge Livestock is a superior amino acid supplement that contains all 10 essential amino acids, plus antioxidants and essential fatty acids. Amino acids play a critical role in building toned, defined muscle in animals.

BENEFITS

1. Formula rich in amino acids.
2. Promotes muscle integrity and definition.
Helps maintain proper body composition.
3. Helps keep animals in peak condition.
4. Supports healthy immune function.
5. Contains a source of live (viable) naturally occurring microorganisms.
6. Appropriate to use with any feeding program.

KEY INGREDIENTS

- Protein
- Lysine
- 10 Amino Acids
- Antioxidants
- Prebiotics
- ALA (Omega 3)
- EPA (Omega 3)
- DHA (Omega 3)

**AMINO ACID
SUPPORT**

This is a GREAT supplement that we add to our daily feed in a small dose, maybe a dozen pellets per bird. For show, it makes them look like winners, and judges agree as we have plenty of ribbons to show for it. For health, it helps their digestive system, blood & bone structure. It has additives for shiny feathers, good facial colors, clear/responsive eyes & many more benefits. - Ritz

DESCRIPTION

Super Spur contains protein, fat, and carbohydrates plus vitamins, minerals, and amino acids to maintain the general health of all ages and breeds of poultry.

BENEFITS

1. Provides nutrients for a healthy body.

KEY INGREDIENTS

- Lactic Yeast
- Peptides
- Digestive Enzymes
- Yeast Cultures (a source of mannan oligosaccharides)
- Prebiotics
- Probiotics
- Beta Glucans

"Our steer we believe got acidosis after spending a week at a major show. Upon returning home, he had diarrhea, no appetite and seemed depressed as both his pen mates didn't return from the show. Within a week of trying this product he was back to eating his normal feed. We continued with this product for a whole month till his next show where gained all his weight back and finally placed! We will use this product again and will try on our pigs too." - Kessler
