

## Product Specification **SynAir**

**TM**

### 1. Purpose

SynAir™ is formulated to help manage EIPH in horses and promote pulmonary health in bleeders. It supports healthy lungs in equine athletes. It is a natural, non-drug addition to antibleeding protocols.

### 2. Feeding Instructions/Product Description

Add one scoop (20 g) to morning feed, or mix with palatable liquid in an oral dose syringe on a daily basis one week prior to racing or working, and for one week after. SynAir™ is a light brown powder.

### 3. Caution

KEEP OUT OF REACH OF CHILDREN. There are no known interactions or contraindications for this product. No adverse effects have been reported. In the case of allergic reaction to this product, discontinue use immediately. SynAir™ is a dietary supplement for use in horses only. This product has not been tested in pregnant or lactating mares. This product is not intended for human consumption. Use only as directed.

\*This statement has not been evaluated by the food and drug administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

### 4. Storage Conditions & Shelf Life

For maximum freshness, store sealed in a cool, dry environment. Recommended usage within 2 years from date of production. Utilize product within two years from date of manufacture for optimal quality and performance.
